

1500mL Cartridge Systems

Ensures accurate proportioning and mixing

Reduces exposure to hazardous resins.

Nordson EFD's 1500mL side x side cartridge was developed for high-volume applications where portability is important, or where the total amount of material applied is not sufficient to justify the cost of a meter-mix system.

Features and Benefits

- Ideal for high-volume applications
- Large capacity reduces changeovers
- 750mL x 750mL in popular 1:1 ratio
- Polypropylene cartridge, LLDPE piston
- Compatible with standard 2K mixers
- Resealable outlet minimizes waste

"Innovation truly drives the success of the adhesives and sealants industry, and we created the ASI Readers' Choice Awards to celebrate all of the industry's hard work and ingenuity. I am thrilled to announce that Nordson EFD received the most votes in the Equipment category."

Part #	Usable Volume	Description	Volumetric Rate	Material
7704044	—	Solid Multi-Seal Piston	1:1	PE

more info

Recommended Mixers

- Series 160 Disposable Plastic Spiral Bell Mixer
- Series 160AA Disposable Plastic Spiral Bell Mixer
- Series 260 Spiral Bell
- Series 280 Turbo Mixers (Square)
- Series 281N Disposable Plastic
- Series 281 Disposable Plastic
- Series 480 OptiMixer Disposable Plastic

Recommended Dispensers

- Manual Dispense Gun
- Pneumatic Dispense Gun

Recommended Pistons

The AF Air-Free Piston is recommended for the 1:1 ratio 50mL cartridge. The AF piston does a superior job of venting all of the air between the material and the piston. Its unique design does not require a shim to bleed the air, nor does it require a second step to insert a center bleed plug. This piston bleeds air around the circumference of the black plug and uses the force of hitting the material to close itself in a single step.

The AF piston provides a more visible indication when the piston is completely closed, i.e. the black center plug is flush with the top of the piston. Further, since the material of construction of the AF piston is a PE/PBT combo, it is compatible with most materials, simplifying inventory.

Other available pistons include Solid O-ring, Solid Multi-seal Pistons, and Multi-seal Pistons with Pre-staged Center Bleed Plug.
