

Disposable Spiral Mixers

Series 141 Disposable Plastic Frother Mixers

Prevents foam from exiting in two streams by extending the tube length beyond the elements.

The Series 141 Mixers are intended for urethane foam applications. The extended tube serves two purposes- (1) for reach and (2) to reduce the spiralling of material after the mix elements to allow for a more accurate dispense.

Specification

- Elements: Acetal (161 & 141), Polypropylene (241)
- Housing: Nylon (141 & 241), Polypropylene (161)

Accessories

- Manifold
- Retaining Nut
