

# Fluid Dispensing Solutions in the Food and Beverage Industry

## How to improve your chocolate figurine molding production

Replace old decorating methods with fast, clean dispensing systems from Nordson EFD.

Nordson EFD solutions optimize food packaging and processing manufacturing with a range of precision filling, automated dispensing, and spray valve systems.

### Benefits

- Small colored details
- Complex chocolate figures and decorations
- High consistency and repeatability
- Higher production capacity
- Easy handling seasonal peaks
- Lower labor costs

### Complex decorating made simple with operator controlled Performus® dispensers

- Consistent dots and fills with less guesswork
- Neat beads and decorations
- Lower operator fatigue
- Compact design saves space

more info

An efficient dispensing system  
will help improve your production.

## Draw decorations in molds with a benchtop robots

- Semi automated system can draw colored decorations inside molds
- Work in multiple molds
- Easy to program, different colors, patterns and mold shapes.

## Other applications for Nordson EFD products

- Precise injection of liquors into chocolate
- Consistent toppings and glazes dispensing
- Accurate mold lubrication
- Efficient lubrication of blades and cutters
