

Plug and Spray Quick Color Change System

Quick color change system designed for fast and efficient color changes

Modular and Adaptable: Built-in wall and rail mount bracket integrates into any venturi powder coating system without the need to make electrical connections for a simple installation.

Easy and Flexible Color Changes: Quick disconnect fittings for easy operation and guided-fit to ensure proper connection.

Efficient: Designed to enhance production by dramatically reducing downtime during color changes. Saves up to 70% of powder material by eliminating the need to clear the powder from the hopper hose.

The Plug n Spray, quick color change system offers a simple, quick disconnect design to changeover colors fast and easy in manual spray gun applications.

- Easy-to-use, accessible panel design allows the operator to effortlessly change from one color to the next in as little as 20 seconds per color
- Adaptable to any type of venturi powder coating equipment and applications
- Flexible color change system, offering up to 10 colors per panel, with the ability to mount as many panels required for the application
