# SAFETY DATA SHEET

SOLDER PASTE Rosin Lead-Free without Antimony

### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier        |                                                                                                |
|-------------------------------|------------------------------------------------------------------------------------------------|
| Product name                  | : SOLDER PASTE Rosin Lead-Free without Antimony                                                |
| Product code                  | : Not available.                                                                               |
| Product description           | : Solder Paste Rosin Lead-free without Antimony (Sb)                                           |
| Product type                  | : Solid.                                                                                       |
| Other means of identification | : Solder Paste, Solder Cream, SolderPlus, PrintPlus - R, RMA, RA, NC, NCLR, 1xx, 2xx, 3xx, 5xx |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Identified uses** 

```
Soldering
```

### 1.3 Details of the supplier of the safety data sheet

Nordson EFD LLC 40 Catamore Blvd East Providence, RI, 02914 USA efdproductcompliance@nordsonefd.com +1-401-431-7000

e-mail address of person : efdproductcompliance@nordsonefd.com responsible for this SDS

### **National contact**

ZN Nordson EFD Deutschland Feldkirchen Kapellenstraße 12 85622 Feldkirchen, Germany +49 89 540465666 solderpaste.europe@nordsonefd.com

### 1.4 Emergency telephone number

#### National advisory body/Poison Center

**Telephone number** : ChemTel: Outside of the US, Canada, Puerto Rico and the U.S. Virgin Islands: +01-813-248-0585 **Supplier Telephone number** : +49 89 540465666

Hours of operation : 24/7

Information limitations : -

### SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

**Product definition** : Mixture

### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Aquatic Acute 1, H400 Aquatic Chronic 1, H410

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

### **SECTION 2: Hazards identification**

| Ingredients of unknown<br>toxicity    | <ul> <li>65.1 percent of the mixture consists of component(s) of unknown acute oral toxicity<br/>96.3 percent of the mixture consists of component(s) of unknown acute dermal<br/>toxicity<br/>96.3 percent of the mixture consists of component(s) of unknown acute inhalation<br/>toxicity</li> </ul> |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ingredients of unknown<br>ecotoxicity | : Contains 89% of components with unknown hazards to the aquatic environment                                                                                                                                                                                                                            |

### See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

. . . . .

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

[6] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

### SECTION 4: First aid measures

### 4.1 Description of first aid measures

| General                    | : In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and seek medical advice.                      |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye contact                | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>                                            |
| Inhalation                 | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Skin contact               | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>                                                 |
| Ingestion                  | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.                                                                                 |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.                                                 |

### 4.2 Most important symptoms and effects, both acute and delayed

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 SOLDER PASTE Rosin Lead-Free without Antimony

### **SECTION 4: First aid measures**

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the CLP Regulation (EC) No 1272/2008 and is classified for toxicological properties accordingly. See Sections 2 and 3 for details.

Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

Ingestion may cause nausea, diarrhea and vomiting.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific treatments | : No specific treatment.                                                                                                                          |

See toxicological information (Section 11)

### **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media<br>Suitable extinguishing<br>media | commended: alcohol-resistant foam, CO <sub>2</sub> , powders, water spray.                                    |            |
|------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|------------|
| Unsuitable extinguishing media                             | not use water jet.                                                                                            |            |
| 5.2 Special hazards arising fr                             | e substance or mixture                                                                                        |            |
| Hazards from the substance or mixture                      | e will produce dense black smoke. Exposure to decomposition products use a health hazard.                     | ; may      |
| Hazardous combustion products                              | composition products may include the following materials: carbon mono bon dioxide, smoke, oxides of nitrogen. | xide,      |

### **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, protective equipment and emergency procedures |   |                                                                                                                                                                                                           |  |
|-------------------------------------------------------------------------|---|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| For non-emergency<br>personnel                                          | 1 | Exclude sources of ignition and ventilate the area. Avoid breathing vapor or mist.<br>Refer to protective measures listed in sections 7 and 8.                                                            |  |
| For emergency responders                                                | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |  |

### **SECTION 6: Accidental release measures**

| 6.2 Environmental precautions                                   | : | Do not allow to enter drains or watercourses. If the product contaminates lakes, rivers, or sewers, inform the appropriate authorities in accordance with local regulations.                                                                                            |
|-----------------------------------------------------------------|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6.3 Methods and materials<br>for containment and<br>cleaning up | : | Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Preferably clean with a detergent. Avoid using solvents. |
| 6.4 Reference to other sections                                 | : | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.                                                                           |

### **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

| 7.1 Precautions for safe handling | <ul> <li>Prevent the creation of flammable or explosive concentrations of vapors in air and avoid vapor concentrations higher than the occupational exposure limits. In addition, the product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Electrical equipment should be protected to the appropriate standard. Mixture may charge electrostatically: always use earthing leads when transferring from one container to another. Operators should wear antistatic footwear and clothing and floors should be of the conducting type.</li> <li>Keep away from heat, sparks and flame. No sparking tools should be used. Avoid contact with skin and eyes. Avoid the inhalation of dust, particulates, spray or mist arising from the application of this mixture. Avoid inhalation of dust from sanding.</li> <li>Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed.</li> <li>Put on appropriate personal protective equipment (see Section 8). Never use pressure to empty. Container is not a pressure vessel.</li> <li>Always keep in containers made from the same material as the original one. Comply with the health and safety at work laws. Do not allow to enter drains or watercourses.</li> <li>Information on fire and explosion protection</li> <li>Vapors are heavier than air and may spread along floors. Vapors may form explosive mixtures with air.</li> </ul> |

#### 7.2 Conditions for safe storage, including any incompatibilities

#### Store in accordance with local regulations.

#### Notes on joint storage

Keep away from: oxidizing agents, strong alkalis, strong acids.

#### Additional information on storage conditions

Observe label precautions. Store in a dry, cool and well-ventilated area. Keep away from heat and direct sunlight. Keep away from sources of ignition. No smoking. Prevent unauthorized access. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

#### Seveso Directive - Reporting thresholds

| Danger criteria |                                 |                         |
|-----------------|---------------------------------|-------------------------|
|                 | Notification and MAPP threshold | Safety report threshold |
| E1              | 100 tonne                       | 200 tonne               |

### 7.3 Specific end use(s)

Recommendations

: Not available.

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 SOLDER PASTE Rosin Lead-Free without Antimony

### **SECTION 7: Handling and storage**

Industrial sector specific : Not available. solutions

### **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### **Occupational exposure limits**

| Product/ingredient name                                                                                                                                                                              | Exposure limit values                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |  |

### **SECTION 10: Stability and reactivity**

|                                            | - |                                                                                                                                |
|--------------------------------------------|---|--------------------------------------------------------------------------------------------------------------------------------|
| 10.1 Reactivity                            | 1 | No specific test data related to reactivity available for this product or its ingredients.                                     |
| 10.2 Chemical stability                    | : | Stable under recommended storage and handling conditions (see Section 7).                                                      |
| 10.3 Possibility of<br>hazardous reactions | : | Under normal conditions of storage and use, hazardous reactions will not occur.                                                |
| 10.4 Conditions to avoid                   | : | When exposed to high temperatures may produce hazardous decomposition products.                                                |
| 10.5 Incompatible materials                | : | Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| 10.6 Hazardous<br>decomposition products   | : | Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.        |

### **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the CLP Regulation (EC) No 1272/2008 and is classified for toxicological properties accordingly. See Sections 2 and 3 for details.

Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

Ingestion may cause nausea, diarrhea and vomiting.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

### Acute toxicity

| Product/ingredient name | Result    | Species | Dose     | Exposure |
|-------------------------|-----------|---------|----------|----------|
| alpha-Terpineol         | LD50 Oral | Rat     | 3.2 g/kg | -        |

**Conclusion/Summary** : Not available.

### **SECTION 12: Ecological information**

### 12.1 Toxicity

There are no data available on the mixture itself. Do not allow to enter drains or watercourses.

The mixture has been assessed following the summation method of the CLP Regulation (EC) No 1272/2008 and is classified for eco-toxicological properties accordingly. See Sections 2 and 3 for details.

### 12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

### 12.3 Bioaccumulative potential

| Product/ingredient name | LogPow       | BCF | Potential |
|-------------------------|--------------|-----|-----------|
| alpha-Terpineol         | 2.98         |     | low       |
| silver                  | -            |     | low       |
| salicylic acid          | 2.21 to 2.26 |     | low       |

| 12.4 Mobility in soil                  |                  |
|----------------------------------------|------------------|
| Soil/water partition coefficient (Koc) | : Not available. |
| Mobility                               | : Not available. |

### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

**12.6 Other adverse effects** : No known significant effects or critical hazards.

### **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### **13.1 Waste treatment methods**

**Product** 

## **SECTION 13: Disposal considerations**

|                               | vPvB = Very Persistent and Very Bioaccumulative                                                                                                                                                                                                                                                                                                                                                                                                                      |

#### Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

| Classification          | Justification      |  |
|-------------------------|--------------------|--|
| Aquatic Acute 1, H400   | Calculation method |  |
| Aquatic Chronic 1, H410 | Calculation method |  |

#### Full text of abbreviated H statements

| H302  | Harmful if swallowed.                                 |
|-------|-------------------------------------------------------|
| H315  | Causes skin irritation.                               |
| H318  | Causes serious eye damage.                            |
| H319  | Causes serious eye irritation.                        |
| H361d | Suspected of damaging the unborn child.               |
| H400  | Very toxic to aquatic life.                           |
| H410  | Very toxic to aquatic life with long lasting effects. |
| H411  | Toxic to aquatic life with long lasting effects.      |
|       |                                                       |

### Full text of classifications [CLP/GHS]

| Acute Tox. 4                    | ACUTE TOXICITY - Category 4                     |
|---------------------------------|-------------------------------------------------|
| Aquatic Acute 1                 | AQUATIC HAZARD (ACUTE) - Category 1             |
| Aquatic Chronic 1               | AQUATIC HAZARD (LONG-TERM) - Category 1         |
| Aquatic Chronic 2               | AQUATIC HAZARD (LONG-TERM) - Category 2         |
| Eye Dam. 1                      | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1 |
| Eye Irrit. 2                    | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2 |
| Repr. 2                         | TOXIC TO REPRODUCTION - Category 2              |
| Skin Irrit. 2                   | SKIN CORROSION/IRRITATION - Category 2          |
| Date of printing                | : 5/27/2021                                     |

#### Notice to reader

The information in this Safety Data Sheet is based on the present state of knowledge and current legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications. The product should not be used for purposes other than those shown in Section 1 without first referring to the supplier and obtaining written handling instructions. As the specific conditions of use of the product are outside the supplier's control, the user is responsible for ensuring that the requirements of relevant legislation are complied with. The information contained in this safety data sheet does not constitute the user's own assessment of workplace risks, as required by other health and safety legislation.
