

Vantage[®] FCM Powder Spray Booth

Batch application powder spray booths offer a cost effective solution ideal for spray to waste or one-color reclaim manual powder coating applications.

- Manufactured with fewer modules, while achieving high CFM capacity, saving money on the initial investment and operating costs.
- Configurations available in 6000 CFM and 8000 CFM
- Designed to contain powder in all configurations, while operating at reduced noise levels.
- Vertically mounted cartridge filters increases filter life and heightens peak performance.

Automated Filter Maintenance: Adjustable time based, reverse-pulsing of filters for longer life and optimum booth air flow. Showerhead valve provides superior cartridge cleaning

Cartridge Filters: Premium 48-inch polyester filters for superior filtration operation, longer filter life and minimum powder retention

No Ductwork or Explosion Venting Required: Air used to contain and recover powder overspray passes through the primary cartridge filter and final filter, exhausting clean air into the workplace

Optional Fluidized Powder Recovery Hopper: Allows for a cleaner operation and easier powder transfer reducing the need for unnecessary cleaning and manual handling

UL 508-Compliant Control Panel: Full-function UL 508-compliant control panel with safety interlock comes standard on all models

Fast and Easy Installation: Module is shipped in sections for fast, easy on-site installation

Optional fluidized powder recovery hopper for cleaner operation and easier powder transfer capability
